All Discontinuances Report	List of individuals who have been discontinued from a medical program	Ad Hoc
Medical Review Type Determination Batch	Displays number of records processed or failed with reason from the Medical Review Type Determination Batch	Ad Hoc
Overdue Tasks Report	Displays a list of all outstanding overdue tasks	Ad Hoc
Pending Apps Without Current Task	Displays a list of programs in pending status without a task	Ad Hoc

Report Name	Description	Report Access Category
Pending Reviews Without Current Task	Displays a list of cases with reviews in pending status without a task	Ad Hoc
Reported Changes Not Acted on Prior to Review	Runs 5 days prior to Medical Review Type Determination Batch and identifies all programs expected to receive a review in the next 50 days with an outstanding task	Ad Hoc
Reported Discontinuance Batch Control Report	Contains various statics produced from the Discontinuance Batch	Ad Hoc
Reviews Coming Due Report	On demand report that displays consumers with upcoming reviews	Ad Hoc
Review Discontinuances By Program/Person	List all programs and consumers with discontinued coverage due to Review Discontinuance	Ad Hoc
User Access Report By Location/Group/Last Logon/User	Display information on who accessed KEES and when they last accessed the system	Ad Hoc
Business Process Management	Information about tracking tasks for all program areas.	Data Views
Reviews	Review Information	Data Views
Recovery Accounts	Consumer overpayment information	Data Views
Medical Programs	Information on medical records for program people	Data Views
Collections	Recovery account repayment information	Data Views
Application	Include program application data	Data Views
BPM Average Duration Times	Provides information related to average wait, visit, and transaction duration	DCF Management
BPM Completion Rates by Team	Includes information related to total tasks completed and total tasks added	DCF Management
BPM Tasks Unclaimed and in Process	Displays the number of unclaimed tasks and projected hours to complete those tasks	DCF Management
BPM Finished Tasks Activity	Categorizes claimed tasks which were started and finished	DCF Management
Pregnant Women Member Count	Shows the number of pregnant women receiving major aid code coverage for the report month	KDHE Management
Post Presumptive Eligibility Comparison	Measures the volume of all members who were approved for Presumptive Eligibility	KDHE Management
Presumptive Eligibility Listing	Provides a listing of all Presumptive Eligibility applications captured within KEES	KDHE Management
Presumptive Eligibility Summary	Provides summary counts of Presumptive Eligibility applications received	KDHE Management
TXXI Member Count	Provides Title XXI member counts by gender and age group	KDHE Management
FFE Application Outcomes and Timeliness	Tracks e-Application requests received via the Federal Marketplace	KDHE Management
Abandoned e-Application	Counts the number of abandoned e-Applications	Portal
Self-Assessment Activity	Measures the volume of self-assessments completed	Portal

Report Name	Description	Report Access Category
SSP Incomplete Applications	Measures the volume of SSP applications in progress	Portal
SSP Survey Report	Provides a summary of statics for responses collected via the survey page within the SSP	Portal
SSP User Account Creation	Measures the creation of user accounts	Portal
SSP Application Activity	Provides information on SSP Application Activity	Portal
255 Detail Listing	Tracks a listing of all requests for coverage	Shared Management
255 Active Reviews Received in Past 12 Month	Provides counts of active reviews received	Shared Management
255 Passive Reviews Received in Past 12 Months	Provides counts of passive reviews received	Shared Management
255 Summary	Summary of applications, reviews, and information received on denial in the reporting month	Shared Management
255 Aging of in Process Coverage Requests	Displays the number of applications, reviews, and information received on denial that are in process during the reporting month	Shared Management
255 Application Breakdown	Displays number of applications received in the reporting month	Shared Management
256 Case Maintenance Requests Detail and Summary	Displays the number of case maintenance requests received during the reporting month	Shared Management
257 Medical Eligibility Outcomes	Displays number of outcomes at the case level, coverage requests level, and member level	Shared Management
Contact Log Report	Contains data collected from the Contact Log in KEES	Shared Management
Individual Request for Coverage Timeliness and Outcomes	Calculates individual outcome data by the number of days to complete for all completed determinations	Shared Management
Medical Aid Code Count by Member Age	Summarizes how many members have coverage under each major and minor aid code for a 13 month period	Shared Management
Medical Major Aid Code Change	Illustrates how many members change major aid codes from one month to the next	Shared Management
Medical Program Discontinuance for Failure to Complete a Mandatory Review	Displays the number of programs discontinued for failure to complete a mandatory review	Shared Management
Outstanding Grievances	Provides a list of all grievances entered into the Contact Log which have not been resolved	Shared Management
Program Application Timeliness	Calculates and displays timeliness data for completed program applications	Shared Management
Received Grievances	Provides a list of all grievances recorded in KEES	Shared Management
Resolved Grievances	Provides a list of all grievances recorded in KEES that were resolved	Shared Management
Review Timeliness	Calculates and displays timeliness data for completed review determinations	Shared Management

Report Name	Description	Report Access Category
435 Super Passive – Passive Review Count	Shows program counts of passive reviews throughout the passive review lifecycle from candidacy to completion after consumer response	Shared Management
Workload Inventory Summary	Provides current program workload detail information by worker ID	Shared Management
BPM Outstanding Tasks	Categorizes outstanding tasks by worker, team, and queue	Shared Management
Voter Registration Requests from SSP	Provides a list of applicants that have requested to register to vote during the SSP application process	Shared Management
Long Term Care Member Count	Provides a count of Long Term Care members	Shared Management
ECM Status Report	Provides a summary of received ECM content	Shared Management
Batch Eligibility Report	Displays information regarding eligibility decisions during batch processing	Shared Management
Case Administrative Role History	Displays a history of current and historic administrative roles for each program on a case	Workload
KAECSES Case Number	Displays a lookup of converted cases which originated in KAECSES and are currently in KEES	Workload
